SYSTEM REQUIREMENTS

Operating System:	Windows® 98/Me/2000/XP
Processor:	Intel® Pentium® III or AMD Athlon™ 733 MHz (1.2 GHz or higher, recommended)
Memory:	256 MB RAM (384 MB RAM or greater recommended)
Hard Disk Space:	3 GB Free
CD-ROM Drive:	8X Speed
Video:	32 MB NVIDIA® GeForce2 MX™ or better. (64 MB NVIDIA® GeForce3™ / ATI® Radeon™ 8500, or better, recommended)*
Sound:	Windows®-compatible sound card. (NVIDIA® nForce™ or other motherboard/soundcard containing the Dolby® Digital Interactive Encoder required for Dolby® Digital audio.) Sound Blaster® Audigy™ series sound cards recommended.
DirectX®:	DirectX® version 8.1 (included) or higher
Modem:	An Internet connection is not required to play this game. However, files created with Unreal Editor may be shared and/or downloaded. An Internet connection and a 33.6 kbps or faster modem (Cable/DSL recommended) is required for sharing and downloading.

* Indicates device should be compatible with DirectX® version 8.1 or higher.

THE README FILE

The *Unreal® II – The Awakening* CD-ROM game has a ReadMe file where you can view both the License Agreement and updated information about the game. To view this file, double-click on that file in the *Unreal II* directory found on your hard drive (usually c:\Unreal2\Help\Readme.txt). You can also view the ReadMe file by first clicking on the Start button on your Windows® taskbar, then on Programs, then on *Unreal II – The Awakening*, and finally on the ReadMe file item. We strongly encourage you to take the time to read this file in order to get the benefit of changes made after this manual went to print. The ReadMe file also contains tips to improve the performance of your computer when running *Unreal II – The Awakening*.

SETUP AND INSTALLATION

1. Start Windows® 98/Me/2000/XP. Exit all other applications.
2. Insert the *Unreal II – The Awakening* CD-ROM Install Disc into your CD-ROM drive.
3. If AutoPlay is enabled, a title screen should appear. Click on the Install button. If AutoPlay is not enabled, double-click on the “My Computer” icon on your Windows® desktop. Next, double-click on your CD-ROM icon. If the install screen still does not appear at this point, click on the Start button on your Windows® taskbar, then on Run. Type D:\Setup and click on OK. **Note:** If your CD drive letter is assigned to a letter other than D, substitute that letter.
4. Follow the remainder of the on-screen instructions to finish installing *Unreal II – The Awakening*.
5. Once installation is complete, click on the Start button on your Windows® taskbar, then select Programs, then *Unreal II – The Awakening*, and then click on *Unreal II – The Awakening* to play the game.

Note: You must have the *Unreal II – The Awakening* CD-ROM Play Disc in the CD-ROM drive to play.

The *Unreal II – The Awakening* CD-ROM requires DirectX® 8.1 or higher in order to run. If you do not have DirectX® 8.1 or higher installed on your computer, click “Yes” when asked if you would like to install it.

STORY

Eight years after the Strider Wars ended, Earth resumed its expansion into space. The central government grew weak, and power passed to the major corporations funding the exploration and exploitation of new planets. Each of these corporations maintained a private force of mercenary soldiers to enforce its will, and law became largely a matter of “Might Makes Right.”

As *Unreal II – The Awakening* opens, you are John Dalton, a Marshal in the Terran Colonial Authority. The TCA is an undermanned police force that patrols the outer reaches of space. Your job is similar to that of a Marshal in the Old West — you are the lone representative of governmental law and order, charged with keeping the peace in a vast and unruly territory.

KEYBOARD COMMANDS

Below is a list of the default controls. To change any of these, press the Esc key to bring up the Main Menu, then choose Options > Controls. Click the box next to the function you want to change, then press the key you want to assign to it.

MOVEMENT

Move Forward	Up Arrow / W	Previous Weapon . . [/	Mouse Wheel
Move Backward	Down Arrow / S	Next Weapon] / Mouse Wheel
Strafe Left . . .Left Arrow / A / Comma		Individual Weapons	Top-row
Strafe Right .Right Arrow / D / Period			number keys 1-5

	Middle Mouse		
Reload	R		

MENUS

Show Menu	Esc
Show Console	Tilde (~)
Pause	Pause

FUNCTION KEYS

F4	View Objectives
F5	Quicksave
F8	Quickload
F9	Screenshot
F10	Gamma
F11	Brightness
F12	Contrast

MAIN MENU

NEW GAME: Click to begin a new game of *Unreal II – The Awakening*.

SAVE GAME: Select one of the empty slots to save your game progress. Select a used slot, and the game will overwrite that file with the new save file.

LOAD GAME: Pick a saved game from one of the saved game slots to continue where you left off. Selecting an icon from the Missions sub-menu will re-start that mission. **Note:** A mission icon will only appear after you have already begun that mission.

OPTIONS: Configure the game settings to your liking. See “Controls and Settings” below for further details.

CREDITS: See the names of the people who made the game.

QUIT: Exit the game.

CONTROLS AND SETTINGS

In the Options menu, you'll find several sub-menus that allow you to configure *Unreal II – The Awakening* just the way you like it. If you don't like the changes you have made, you can easily restore the original settings by clicking the “Defaults” button. Here are some of the features most commonly customized by users:

GAME

Dodging: Determines whether or not double-tapping a direction key will cause you to leap quickly in that direction. The slide-bar adjusts the sensitivity of the double-tap.

Game Difficulty: Choose Easy, Normal or Hard.

View Bob: This slide bar determines how much the screen bobs to simulate running.

VIDEO

Configure the look of the game here. Choose your Screen Resolution and adjust the Gamma, Brightness and Contrast. **SHADOWS**

This menu contains options for tweaking shadows. The Master Detail selector allows for quick changes to the overall settings. Lowering/disabling shadows may help performance in certain levels of the game.

AUDIO

Modify the game's sound configuration here. You can adjust the music and sound effects volumes. You can also activate 3D audio hardware and Surround Sound features.

EAX

On Creative's SoundBlaster Audigy or Audigy 2 sound cards, this setting activates hardware-accelerated 3D positional audio and EAX ADVANCED HD audio technology. *Unreal 2* uses EAX ADVANCED HD to portray realistic acoustic environments and the natural filtering effects that occur when sound passes through and around objects. On other 3D audio accelerators, this setting enables 3D positional audio only.

HUD

Important information is displayed in the Heads-Up Display during the game. In the HUD menu you can adjust GUI mouse speed and turn the subtitles, crosshair glow and display objectives ON or OFF.

CONTROLS

Here you can assign keys to different game functions like movement and weapons. For example, you can reassign the "Next Weapon" function to the Shift key. Click on the box next to the function you want to change, then hit the key you want to assign to that function.

INPUT

Turn the following controller options ON or OFF, or adjust them on the slider bar.

Mouse Sensitivity: Determines how sensitive the game's mouse controls are to the movement of your mouse. The higher the sensitivity, the less you have to move the mouse to produce a given action.

Invert Mouse: When turned ON, moving the mouse down causes you to look up, and moving the mouse up causes you to look down.

Mouse Smoothing: This option makes your player movement smoother when you MouseLook.

MouseLook: With this option enabled, you can use your mouse to look around without pressing the MouseLook key.

HEADS-UP DISPLAY

1. **Health Indicator:** This number indicates how healthy you are.
2. **Shield Indicator:** This number shows how much power remains in your shield.
3. **Clip Indicator:** This counts down the amount of ammo left in your current clip.
4. **Ammo Indicator:** This number shows how much ammo you have in reserve.
5. **Subtitles:** Subtitles for some spoken text appear at the bottom of the screen.
6. **Objectives:** Press the F4 key to display your current set of objectives.
7. **Artifact:** This icon is displayed in the lower left corner if you are currently holding an artifact.
8. **Extra Equipment:** This icon is displayed when you have additional equipment that is ready to be deployed.
9. **Dialog Options:** When you have response choices for dialogs, the numbered options will be displayed here.
10. **Weapons Info:** Weapon information is displayed here.

WEAPONS

TERRAN MILITARY HARDWARE

DISPERSION PISTOL

Alternate Names: LEPEW-13 or “Law Enforcement Personal Energy Weapon, Type 13,” also known by cops as a “Dispersion Pistol,” or more derisively as a “popgun.”

Ammo: Does not need ammo; recharges from a small quantum source in the handle.

Primary Fire: A fairly low-power, slow-moving quantum energy pulse.

Alt-Fire: A pulse with a higher energy level. The weapon charges up over time, stores the charge in a capacitor, and releases a higher-power blast.

Uses: While the dispersion pistol is a fine weapon for a law enforcement officer, it was not designed for military use and is ineffective in high-intensity combat. Use it only as a last resort.

CAR

Alternate Names: M32[A2] 5.56 mm Combat Assault Rifle, standard issue weapon for Military Infantry. Nicknamed the “Duster.”

Ammo: Depleted uranium shards.

Primary Fire: Very high rate of automatic fire.

Alt-Fire: A cluster of five shards packed together to form a single, slower-moving slug.

The slug will break apart on impact, allowing you to bounce the shards off walls and around corners.

Uses: The CAR is the standard infantry weapon for the Terran Military grunt. Very effective overall — you can hose down an area using the primary fire mode or deliver a lethal single punch with the alternate fire.

GRENADE LAUNCHER

Alternate Names: M406 “Hydra” 40mm Grenade Launcher, so-named for the multiple ammo types. Used by a wide variety of military forces.

Ammo: Fires six different grenade types:

- *Fragmentation:* Enormous explosive power and needle-sharp carbo-steel fragments. Absolutely lethal in close quarters.

- *Toxic gas:* Sprays out a cloud of neurotoxic gas that is so caustic it eats through metal armor.

- *Incendiary:* Sprays burning phosphorus and will set almost anything on fire.

- *Smoke:* Lays down a smokescreen to help you escape from your enemies.

- *Concussion:* Sends out a shockwave that will knock down most enemies.

- *EMP:* Massive electro-magnetic pulse that will disable almost any electrical system instantly.

Primary Fire: Tapping the primary fire lobbs out a grenade that explodes on contact. Holding down the primary fire engages the timing mechanism so the grenades do not explode until after a few seconds have passed.

Alt-Fire: Switches to the next grenade type, if you have any in your inventory.

Uses: The grenade launcher is an amazingly versatile and effective piece of military hardware, perhaps the best all-around portable weapon in the Terran arsenal.

SHOTGUN

Alternate Names: M700 12G Semiautomatic Riot Shotgun, affectionately called the “Crowd Pleaser.”

Ammo: Uses standard 12-gauge shotgun ammunition.

Primary Fire: A single shell containing 16 pellets.

Alt-Fire: Incendiary slugs with a wider spread and shorter range.

Uses: This gun is absolutely devastating at close range — perfect for clearing a room or taking out an enemy (or small group of enemies) right in front of you. Don’t use it at long distances, the effectiveness drops off quickly as the pellets scatter.

FLAMETHROWER

Alternate Names: UA69 “Vulcan” Flamethrower. Used by Urban Assault Units of the Terran Heavy Infantry.

Ammo: Canisters of napalm.

Primary Fire: A jet of flaming gas.

Alt-Fire: A spray of unignited napalm which will stick to almost any surface, and which can be ignited by several of your other weapons.

Uses: This is the most lethal short-range weapon in the Terran arsenal — you can incinerate entire squads of enemies at close quarters.

MAGNUM

Alternate Names: P400 “Avenger” .50 Caliber Semiautomatic Pistol, standard sidearm for Terran Military Special Forces.

Ammo: Uses .50 caliber explosive ammunition.

Primary Fire: A standard single shot. Very accurate and very powerful.

Alt-Fire: A three-round burst with an even bigger punch.

Uses: The Magnum is the most powerful sidearm out there. Best for medium range targets, when you’re too far away for the shotgun, but too close for the sniper rifle.

ROCKET LAUNCHER

Alternate Names: MP3 Man Portable Rocket Launcher, Type 3, called the “Shark” by the units that use it (probably because of the weapon’s appearance).

Ammo: Self-propelled rockets with four thrusters and explosive warheads that detonate on impact.

Primary Fire: Four missiles bound together as one rocket.

Alt-Fire: Releases the four component parts of a rocket as individual missiles — they are unstable in flight and hence are called “drunken” missiles.

Uses: Nothing beats the primary fire mode for accurate, long-range devastation with significant splash damage. The alt-fire drunken missiles are wildly unpredictable, but are good for saturating an area or providing suppressing fire.

SNIPER RIFLE

Alternate Names: Type 72 Sniper Rifle. The “Widowmaker.” Favorite of snipers in the Special Forces.

Ammo: Fires .50 caliber depleted uranium slugs.

Primary Fire: Fires a single shot.

Alt-Fire: Toggles the scope on and off. Use the mouse wheel to zoom in or out.

Uses: The T72 is a highly specialized weapon that should be used only for long-range sniping, but it does its job very, very well. Its targeting system compensates for wind and other variables to create an instant hit on virtually any target you can see.

ALIEN WEAPONS

ENERGY RIFLE

Alternate Names: Izarian energy weapon, dubbed the “Shock Lance” by Isaak.

Ammo: Izarian energy crystals derived from ASMD technology.

Primary Fire: Generates two fast-moving plasma bolts that do relatively small amounts of damage — but the rate of fire is very high, allowing you to put many bursts on a target in a short period of time.

Alt-Fire: An EMP burst that detonates on impact. The EMP burst is particularly effective against machinery.

Uses: The Shock Lance generates a lot of sound and fury but isn't terribly effective.

OTHER ALIEN WEAPONS

In the course of the game, you may acquire other alien weapons. Always check in with Isaak before entering your dropship. You never know what old weapons he may have modified or what new weapons he may have cobbled together.

OTHER ITEMS

HEALTH STATION

Step inside the station to recharge your health.

POWER STATION

Step inside the station to recharge your shields.

AMMO PICKUPS

Run over ammunition to pick it up. If you already have a full supply of that kind of ammunition, nothing will happen. Otherwise, the pickup will disappear and the ammo will be added to your inventory.

GAME TIPS

Keep moving. A moving target is harder to hit than a stationary one. Strafing is a great way to avoid getting shot (the left and right arrow keys will make you strafe) while keeping your crosshair on your enemy. Use it or lose it!

Weapons with explosive payloads, such as the Rocket Launcher, create “splash damage.” Use this to hurt your enemies by aiming near them or on the ground in front of them. A couple of good splashes will take out your opponent in no time.

Many weapons are great for close combat, while others are better suited for long-distance play. For instance, the shotgun is great in close quarters while the zoom of the Sniper Rifle makes it the ultimate long-range gun.

Many of your weapons cause splash damage that will injure you if they explode nearby. Be careful where you shoot.

If you're unsuccessful jumping to a spot that looks accessible, hold down the jump key to “mantle” and you may be able to pull yourself up.

Save often — but you can always start a mission again using the Mission Log.

Isaak constantly tinkers with your weapons. Check in with him between missions to see if he has made any breakthroughs.

ADVANCED TECHNIQUES

Some weapons will cause momentary panic among your enemies. Take advantage of their disorientation.

Lean around corners to see what's up ahead. You won't be able to shoot anyone, but they won't shoot you either.

Some dead enemies are great sources of ammo and extra energy for your power armor.

You can ricochet shots off walls and around corners to take out an enemy. Both the Grenade Launcher and the alt-fire function on the CAR are effective ricochet weapons.

Use cover. Your enemies will.

TROUBLESHOOTING

PROBLEMS LAUNCHING THE GAME

If you are having difficulty launching the game:

Close any other applications that are running on your PC, including applications in the system tray.

If you continue to have difficulties launching the game, please read through the information listed below:

Q: Are you using a backup of the original disc?

In some cases, due to the fact that some copies are so close to an original, SecuROM does not provide the 'Wrong disc' or equivalent message and instead aborts the launch. If you're not using the original game CD, that's the problem!

Q: Do you have virus scanners, disk management tools, debuggers, or emulators running in the background?

Most virus scanners and disk management tools are typically OK, but we recommend that they be disabled. Debuggers and emulators are not allowed due to their use in circumvention of SecuROM technology.

Q: Do you have a Kenwood multi-beam CD-ROM drive?

These drives can have older firmware which will cause problems reading the CD. If your CD-ROM drive is the Kenwood ICR-412 or Kenwood UCR-401, and the firmware is older than version 132, you will need to upgrade the firmware. The firmware update is available from Kenwood at:

<http://www.kenwoodtech.com/downloads.html>

Q: Are real-mode drivers being used for the CD-ROM drive?

Real-mode drivers are not compatible with this software title; please install the latest plug and play drivers for your CD-ROM drive.

Q: Is your sound card a PCI64 using the ES1371 drivers, version 4.05.1127 or 4.05.1129?

Please install the latest drivers for your sound card.

Q: Are you running the game on a Dell 4100/4300 series computer and Windows 2000?

Intel identified a problem with the Intel Ultra ATA storage controller, and has offered an update on their web site.

1) The update to the Intel Application Accelerator program can be found here:

<http://www.intel.com/support/chipsets/iaa/>

2) The latest drivers for the Intel storage controllers can be found here:

http://appsr.intel.com/scripts-df/Product_Filter.asp?ProductID=182

Select the drivers for Windows 2000, download and run the setup program, then reboot.

Q: Is the firewall software Zone Alarm Pro being used?

Make sure the latest version is installed, and older version may cause conflicts with the game software.

TECHNICAL SUPPORT

(U.S. & CANADA)

Help Via the Internet

Up-to-the-minute technical information about Infogrames, Inc. products is generally available 24 hours a day, 7 days a week via the Internet at:

<http://www.ina-support.com>

Through this site you'll have access to our **FAQ** (Frequently Asked Questions) documents, our **FTP** (File Transfer Protocol) area where you can download patches if needed, our **Hints/Cheat Codes** if they're available, and an **E-Mail** area where you can get help and ask questions if you do not find your answers within the **FAQ**.

Note: In the event we must send you a Hint Sheet, FAQ document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children's privacy and safety online. Consent Forms are available at the web site listed above.

Help Via Telephone/Fax or Mail in the United States & Canada

For phone assistance, call Infogrames, Inc. **Tech Support** at **(425) 951-7106**. Our **Interactive Voice Response** and **Faxback** system is generally available 24/7, providing automated support and allowing FAQ documents to be faxed to you immediately.

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's **Tech Support #** when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's **Tech Support #**

is located in several places (on the CD label, package and/or plastic disc case) and is usually identified by a number such as **04-12345**. When prompted by the Automated System, enter the **last five digits** of your product's Tech Support #. (For example, Tech Support # 04-12345 would require that you enter the "12345" portion of the number for that product.) **Note:** Some products simply feature a five-digit Tech Support # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). **Note:** We may be closed on major holidays.

Before making your call, we ask that you be at your computer, have the following information available, and be ready to take notes:

- System Make and Model
- Processor Type
- Operating System, including version number if possible (such as Windows® 98; Windows® Me)
- RAM (Memory)
- Video and sound card data and drivers
- Any screen or error messages you've encountered (and where)

You may also fax in your Technical Support questions or problems to: **(425) 806-0480**, or write to the address on the next page.

Product Return Procedures in the United States & Canada

In the event our technicians at **(425) 951-7106** determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. Any materials not containing this RMA# will be returned to you unprocessed. Send your materials to the following address:

Infogrames, Inc.
Attn: TS/CS Dept.
13110 NE 177th Place
Suite # B101, Box 180
Woodinville, WA 98072-9965
RMA #:

Warranty Policy in the United States & Canada

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Infogrames, Inc. will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging. If you do not have the original receipt, or if the warranty period has expired, Infogrames, Inc. will replace the product storage medium for a nominal fee.

END-USER LICENSE AGREEMENT

INFOGRAMES, INC. ("INFOGRAMES") IS WILLING TO LICENSE THE GAME CONTAINED ON THIS DISC OR CARTRIDGE AND ANY ACCOMPANYING DOCUMENTATION TO YOU ONLY ON THE CONDITION THAT YOU ACCEPT ALL OF THE TERMS IN THIS LICENSE (the "License") AND INDICATE YOUR ACCEPTANCE BY CLICKING THE "I ACCEPT" BUTTON. PLEASE READ THE TERMS CAREFULLY BEFORE CLICKING THE "I ACCEPT" BUTTON. BY CLICKING THE "I ACCEPT" BUTTON YOU ACKNOWLEDGE THAT YOU HAVE READ THIS LICENSE, UNDERSTAND IT AND AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO THESE TERMS, DO NOT USE THE SOFTWARE AND PROMPTLY RETURN THE DISC OR CARTRIDGE IN ITS ORIGINAL PACKAGING TO THE PLACE OF PURCHASE.

1. Grant of License. The software accompanying this License and related documentation (the "Software") is licensed to you, not sold, by Infogrames, and its use is subject to this License. Infogrames grants to you a limited, personal, non-exclusive right to use the Software in the manner described in the user documentation. If the Software is configured for loading onto a hard drive, you may load the Software only onto the hard drive of a single machine and run the Software from only that hard drive. You may permanently transfer all rights Infogrames grants to you in this License, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials, and any upgrades), and the recipient reads and accepts this License. Infogrames reserves all rights not expressly granted to you by this License.

2. Restrictions. Infogrames or its suppliers own the title, copyright, and other intellectual property rights in the Software. The Software contains copyrighted material, trade secrets and other proprietary material. You may not delete the copyright notices or any other proprietary legends on the original copy of the Software. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software. You may not copy, rent, lend, lease, sublicense, distribute, publicly display, create derivative works based upon the Software (except as provided in Section 3 below) or otherwise commercially exploit the Software. You may not electronically transmit the Software from one computer, console or other platform to another or over a network.

3. Editor and End-User Variations. If the Software includes a feature that allows you to modify the Software or to construct new variations for use with it (an "Editor"), you may use such Editor to create modifications or enhancements to the Software, including the construction of new levels (collectively, the "Variations"), subject to the following restrictions: (i) your Variations must only work with the full, registered copy of the Software; (ii) your Variations must not contain modifications to any executable file; (iii) your Variations must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party, or contain any trademarks, copyright-protected work or other property of third parties; and (iv) you may not commercially exploit your Variations, including but not limited to making such Variations available for sale or as part of a pay-per-play or timesharing service. By distributing, permitting the distribution of, or making publicly available any of your Variations, you hereby grant back to Infogrames an irrevocable royalty-free right to use and distribute them by any means. Infogrames may at any time and in its sole discretion revoke your right to make your Variations publicly available.

4. Termination. This License is effective until terminated. You may terminate this License at any time by destroying the Software. This License will terminate immediately without notice from Infogrames if you fail to comply with any provision of this License. Upon termination, you must destroy the Software.

5. Disclaimer of Warranty on Software. You are aware and agree that use of the Software and the media on which it is recorded is at your sole risk. The Software and the media are provided "AS IS." Unless otherwise provided by applicable law, Infogrames warrants to the original purchaser of this product that the Software storage medium will be free from defects of materials and workmanship for ninety (90) days from the date of purchase. This warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. INFOGRAMES EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. INFOGRAMES DOES NOT WARRANT THAT THE FUNCTIONS CONTAINED IN THE SOFTWARE WILL MEET YOUR REQUIREMENTS. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY INFOGRAMES OR ANY INFOGRAMES-AUTHORIZED REPRESENTATIVE SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THIS WARRANTY. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO YOU.

6. Limitation of Liability. UNDER NO CIRCUMSTANCES, INCLUDING NEGLIGENCE, SHALL INFOGRAMES BE LIABLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH THE SOFTWARE, INCLUDING THOSE THAT RESULT FROM THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INFOGRAMES HAS BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES. IN NO EVENT SHALL INFOGRAMES' TOTAL LIABILITY TO YOU FOR ALL DAMAGES, LOSSES AND CAUSES OF ACTION (WHETHER IN CONTRACT, TORT OR OTHERWISE) EXCEED THE AMOUNT PAID BY YOU FOR THE SOFTWARE. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

7. Choice of Law and Venue. THIS LICENSE SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH CONTROLLING U.S. FEDERAL LAW AND THE LAWS OF THE STATE OF NEW YORK, EXCLUSIVE OF ITS CHOICE OF LAW AND/OR CONFLICTS OF LAW JURISPRUDENCE. THE EXCLUSIVE VENUE FOR ALL LITIGATION REGARDING OR ARISING OUT OF THIS LICENSE SHALL BE IN NEW YORK COUNTY, NEW YORK, AND YOU AGREE TO SUBMIT TO THE JURISDICTION OF THE COURTS IN NEW YORK COUNTY, NEW YORK FOR ANY SUCH LITIGATION.

8. Miscellaneous. Nothing herein shall be deemed to supercede or derogate from Infogrames' remedies at law for any violation of this License or applicable law. If any provision of this License is unenforceable, the rest of it shall remain in effect. This License constitutes the entire agreement between you and Infogrames with respect to the use of the Software and the support services (if any) and supersedes all prior or contemporaneous oral or written communications and representations with respect to the Software or any other subject matter covered by this License.
